Project Plan

Funding for larger projects is available for up to \$6,000. Project grants are designed to assist landowners undertaking larger scale on-ground environmental works which demonstrate a significant improvement in the City of Whittlesea's environmental values. Applications for a project grant must be supported by a clear project plan and quotes for materials and labour (where applicable). The project must be delivered by someone with proven experience and capacity to complete the works, whether that is the landowner or an external contractor.

Project grants are ideal for landowners with a proven track record and the capacity to manage their own projects - such as those who have successfully completed smaller grants and are ready to scale up their efforts.

Please upload your project plan and additional documents if required. *
